

## ILRS Group Seminar

July 3, 2009

14:00 Lecture Hall, HKI Main Building

- 14:00 Prof. Peter Zipfel, Seminar Opening
- 14:05 Prof. Erika Kothe  
Pheromone Response in Basidiomycetes
- 14:30 Arne Weinhold (Dept. Prof. Baldwin)  
Microbial interaction relevant for the fitness of *Nicotiana attenuata* in the native environment
- 14:40 Karthik Mohan (Dept. Prof. Mittag)  
An insertional mutagenesis approach to understand temperature entrainment of the circadian clock in *Chlamydomonas reinhardtii*
- 14:50 Sarbani Sarkar (Dept. Prof. Wöstemeyer)  
Identification of Factors Involved in the Regulation of Sexual Development in *Mucor mucedo*
- 15:00 **Coffee Break**
- 15:30 PD Dr. Uwe Horn  
Camelid antibodies produced in *Escherichia coli*: From phage display to fermentation
- 15:50 Swantje Behnken (Dept. Prof. Hertweck)  
Discovery of an Unusual Secondary Metabolite from *Clostridium*
- 16:00 Andreas Thywissen (Dept. Prof. Brakhage)  
Interactions between alveolar macrophages and *Aspergillus fumigatus* conidia
- 16:10 Hannes Eberhardt (Dept. Prof. Zipfel):  
Complement factor H-related protein 2 (CFHR2) could target on B-cell regulation
